Constructed within robust shipping container enclosures, our energy storage systems are designed to withstand the elements. Protected from harsh weather conditions, our units are ...

With third-level BMS architecture and multiple charging modes, our containers ensure safe, long-term operation. Real-time monitoring and ...

- High Energy Efficiency: Maintains 70% efficiency after 10 years (two charges and two discharges). - Long Lifespan: Designed for a 15-year ...

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client ...

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel ...

Delivers 100 kW rated AC power and 232 kWh battery capacity for industrial and commercial energy needs. Designed with IP55 protection, ...

With third-level BMS architecture and multiple charging modes, our containers ensure safe, long-term operation. Real-time monitoring and remote control provide full visibility and reliable ...

These containers function as a stand-alone energy storage system that is specifically designed to store energy

generated by solar panels.

Need reliable off-grid power on the go? AVCON's ultra-portable energy storage delivers quiet, scalable, solar-ready power for campers and travelers. Get specs & demo today.

Delivers 100 kW rated AC power and 232 kWh battery capacity for industrial and commercial energy needs. Designed with IP55 protection, transformer isolation, and real-time monitoring ...

- High Energy Efficiency: Maintains 70% efficiency after 10 years (two charges and two discharges). - Long Lifespan: Designed for a 15-year operational lifespan under standard ...

The 100kW/241kWh air cooling energy storage system features a prefabricated cabin design for flexible deployment, convenient transportation, and no need for internal wiring and debugging.

Powered by premium 610W panels, the 100KW Mobile Solar Container from HighJoule delivers maximum energy density in a compact 20ft format. It's optimized for grid-tied setups requiring ...
