The project, led by EA Astrovolt, the East African arm of U.S.-based Energy America, is part of a wider national goal to integrate more than one gigawatt of solar-plus ...

Jon Paul Ojok developed a mobile solar power box to supply electricity to students in West Nile region in Uganda.

That is why the Green People's Energy initiative wants to bring power to more primary schools in Uganda. For this, high-quality solar home systems are being installed, ...

The Government of Uganda has authorised engineering, procurement, and construction (EPC) contractor Energy America to build a 100MWp solar PV plant, integrated with a 250MWh ...

That is why the Green People's Energy initiative wants to bring power to more primary schools in Uganda. For this, high-quality ...

This study presents a methodology for the optimal sizing and operation of photovoltaic (PV) and battery storage systems tailored to low-income schools in regions with ...

The suitcases will bring electricity to 40 schools in the refugee settlement, which provide education to over 12,000 students. They are designed to be easily transported (thus ...

With Uganda's solar potential, Station Energy has developed an innovative concept of solar cold room for fresh product refrigeration/freezing in ...

The Ugandan government, through the Ministry of Education and Sports (MoES), is launching an ambitious
