For the latest updates and more information, visit our website: <https://drakoulis.eu>

From portable units to large-scale structures, these self-contained systems offer customizable solutions for generating and storing solar power. In this guide, we'll explore the ...

With the laser integrated in Solarfold and a specially made tape measure, you can position and drill the drill holes for the ground anchor in no time. ...

With the laser integrated in Solarfold and a specially made tape measure, you can position and drill the drill holes for the ground anchor in no time. Just sink the anchor and spread it with the ...

Only the highest quality components are used in the mobile PV system and we carefully examine them in advance. The inverter used has an advanced cooling system, which ensures reliable ...

With an experienced R& D team, we are able to design and manufacture solar power pods with superior performance and cost-effectiveness according to the specific needs of our customers. ...

This best practice guide looks at using solar PV to provide electricity for conventional onshore oil and gas operations. It is part of an ongoing series from OGCI's Energy Efficiency in Industry ...

The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Each container is equipped with a photovoltaic array, a battery ...

This case study shows use cases from the real world along with technical data and performance metrics, distinguishing domestic (China), as well as international (EU/US).

This article explores how SWMC photovoltaic engineering drilling rigs contribute to photovoltaic projects by

improving installation speed, efficiency, and sustainability.

We design and engineer custom Solar Power Systems for Oilfield Services, Gas Pipelines, Off-shore Drilling, Injection Sites, Wellhead Locations and Related Oil and Gas Service Companies.

The Mobil-Grid [®] is an ISO-standard, CSC-approved maritime container that integrates a photovoltaic power plant, ready to be deployed and connected, with integrated control cell and ...
