---

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

The Energy Storage Controller Inverter Integrated Machine combines the functions of inverter, MPPT solar controller and utility charging to provide stable power supply for power-using ...

LZY-MSC1 Sliding Mobile Solar Container is a portable containerized solar ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best return on investment.

This all-in-one containerized system combines an LFP (LiFePO4) battery, bi-directional PCS, isolation transformer, fire suppression, air conditioning, and an intelligent Battery Management ...

The EnerC+ container is a modular integrated product with rechargeable lithium-ion batteries. It offers high energy density, long service life, and efficient energy release for over 2 hours.

Power Station provides a flexible, pre-engineered energy storage solution consisting of a standard ISO container with integrated electrical, ...

BigBattery provides lithium-ion battery packs that are perfect for powering any off-grid solar application. Browse our products today to find what you need.

LZY-MSC1 Sliding Mobile Solar Container is a portable containerized solar power generation system, including highly efficient folding solar modules, advanced lithium battery storage and ...

Power Station provides a flexible, pre-engineered energy storage solution consisting of a standard ISO container with integrated electrical, mechanical, and thermal management features.

It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire ...

Adding Containerized Battery Energy Storage System (BESS) to solar, wind, EV charger, and other renewable energy applications can reduce energy costs, minimize carbon footprint, and ...

It features a high-quality container enclosure pre-installed with a battery rack, allowing clients to integrate their own battery packs, cooling systems, fire suppression systems, and other ...

The EnerC+ container is a modular integrated product with rechargeable lithium-ion batteries. It offers high energy density, long service life, and ...

Microgreen offers large-scale energy storage that is reliable in harsh environments, cost effective with top energy density, and provides best ...
