---

Our photovoltaic kit NR" 40 XL offers an innovative and mobile solution for self-consumption. Depending on your geographic location, you can produce up to 9350 kWh per year.

Design a 40ft solar container for remote solar setup in mining camps, ensuring reliable off-grid power, durability, and fast deployment.

Container Bundles combine transformers and mining equipment, putting you in control of the workload. Wattum"s largest mobile mining container can ...

Rapid mobile solar power generation for various industrial production, mining and other services. Provide additional solar power for self-sustained use, ...

Rapid mobile solar power generation for various industrial production, mining and other services. Provide additional solar power for self-sustained use, while also supporting existing ...

HighJoule"s 200KW Solarfold unit is built for fast deployment in emergencies, large-scale outdoor events, pop-up hospitals, or military forward operating bases. Its foldable design and high ...

Explore how SolaraBox"s off-grid solar containers provide reliable and sustainable power solutions for remote mining operations, reducing reliance on diesel generators and lowering operational ...

Container Bundles combine transformers and mining equipment, putting you in control of the workload. Wattum"s largest mobile mining container can hold up to 340 ASICs with a total 1.4 ...

Rio Tinto"s Gudai-Darri iron ore mine in Australia employs customized 40-foot photovoltaic containers with integrated battery storage, achieving 16% reduction in onsite diesel usage ...

Our containerised energy storage system (BESS) is the perfect solution for large-scale energy storage projects. The energy storage containers can be used in the integration of various ...

With 140kW solar and 215kWh battery in a 40ft container, it handles heavier industrial loads in harsh outdoor conditions, supporting sustainable operations with minimal maintenance.

The Container Roll-Out Solar System (CROSS) is a factory assembled relocatable solar array. CROSS is freighted in standard 20 ft and 40 ft shipping containers, and can be rolled out using ...
