The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more ...

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future ...

The international tender, first announced in February, aimed to secure 500 MW of energy storage capacity for critical points in the Buenos Aires Metropolitan Area (AMBA) grid.

Argentina's landmark AlmaGBA Initiative presents a replicable model for enhancing grid resilience through commercial & industrial (C& I) storage. It outlines financing mechanisms ...

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage ...

This article explores how lithium-ion batteries, AI-driven management, and innovative solar integration are reshaping Argentina's energy landscape - and why global investors should pay ...

According to industry sources, Argentina is preparing a new public energy storage tender following the success of AlmaGBA in the Buenos Aires Metropolitan Area, which ...

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA ...

Argentina's energy system, much like a overworked tango dancer, keeps stumbling when the heat is on. But here's the twist: the country is now charging toward energy ...

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in ...

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban ...

You know how people say Argentina's got all that lithium but still struggles with blackouts? Well, here's the kicker: the country's racing to deploy 500MW of energy storage by 2025 while ...
