Read our latest project report on a Solar Storage installation in Armenia. See how this 14kW system provides reliable off-grid power and backup.

Specializing in grid-scale battery systems and renewable integration solutions, our company delivers turnkey energy storage projects across the Caucasus region.

Baghdad, Iraq - May 3, 2024 - Shanghai Nenghui Energy Storage Co., Ltd. (Nenghui), a global leader in renewable energy solutions, has successfully commissioned a state-of-the-art 125kW ...

oBTM batteries are small-scale batteries (3 kW-5 MW) installed at the residential or commercial customer level (typically in conjunction with a solar PV system), to provide peak shaving, self- ...

As Uganda's first diversified lithium battery production company, we provide world-class stationary energy storage and e-mobility solutions designed for performance, safety, and reliability for ...

This 5G base station power supply system integrates battery backup, DC power distribution, and advanced control modules to ensure reliable energy support for critical telecom infrastructure.

Implementing proper lithium battery BMS standards in Gyumri requires balancing international technical specifications with local environmental factors. From temperature compensation ...

Creation and use of a techno-economic model to analyse the Armenian electricity system and determine cost-optimal deployment of battery energy storage system (BESS)
