Detailed profile including pictures, certification details and manufacturer PDF.

Located in Ningbo, China, we have expanded our expertise to become a trusted provider of integrated energy solutions, including hybrid inverters and energy storage systems.

Austa high voltage hybrid inverter has a high degree of adaptability and compatibility, supports up to 120% three-phase unbalanced output, is fully adapted to the ...

The inverter supports battery storage, generator start, and parallel connection of up to 10 units. Designed for high efficiency and flexibility, this low voltage hybrid inverter is ...

Austa is a high-tech enterprise under OSDA group who is the solar module manufacturer located in Ningbo, China. Austa is committed to the research, development and production of solar ...

Chinese manufacturer Austa has released a new series of single-phase low-voltage hybrid inverters for residential applications.

PV and solar inverters are essential components of PV systems. They convert the direct current (DC) generated by PV modules into alternating current (AC). PV inverters by SMA are ...
