This system is engineered for performance and durability. With 500KW of power and a massive 2150kWh of storage, it ensures stable energy supply during peak usage or grid outages. Its all ...

Experience the power of a large multi-function smart energy storage station with our container system. It offers extensive capabilities to store and manage energy efficiently, optimizing ...

Use it as a solar farm backup, a data center power buffer, or a mobile energy hub for construction sites. With its 40ft steel container, you can deploy reliable power anywhere, even in remote or ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or ...

This system combines a 500kW bidirectional Power Conversion System (PCS) and 1 megawatt-hour (MWh) of lithium-ion battery storage in a secure, ISO-rated shipping container. It's ...

BESS are shipped with all the components pre-installed in the factory for quicker and easier site installation (shipped using UN 3536 standards). ...

This is the product of combining collapsible solar panels with a reinforced shipping container to provide a mobile solar power system for off-grid or remote locations.

It features a three-level battery management system that ensures robust protection against overcharging, over-discharging, and over-voltage. The modular design enables easy ...

The IP54-rated enclosure ensures dependable operation even in harsh environments. Consequently, with its
