The much-anticipated 5MW Floating Independent Power Producer (IPP) Photovoltaic (PV) project in the Providence Lagoon is ... Read more

Seychelles is set to launch Africa's largest floating solar farm by 2025. Learn how this 15 MW project will advance renewable energy, ...

Independent renewable energy company Qair has officially launched construction of the Seysun Lagoon Floating PV plant, an ...

The Ile de Romainville Solar Park is a 5-megawatt (MW) solar photovoltaic (PV) power plant with battery storage in the Republic of Seychelles.

Seychelles is set to launch Africa's largest floating solar farm by 2025. Learn how this 15 MW project will advance renewable energy, cut emissions, and boost energy security.

French independent power producer (IPP) Qair has secured a US\$5.7 million senior debt facility to finance the development of a 5.8MW floating solar (FPV) project off Mahé Island; ...

As the first IPP utility-scale project in Seychelles and one of the largest floating solar PV projects in Africa, it represents a significant ...

Key Figures & Findings: Seychelles has begun construction of its first utility-scale floating solar power plant, a 5.8 MW project in the Providence Lagoon on Mahé Island.

As the first IPP utility-scale project in Seychelles and one of the largest floating solar PV projects in Africa, it
