---

Suitable for tech and retail clients across the UK, our battery storage containers help secure lithium and other types of batteries--and ...

We specialise in containerised solutions for lithium-ion systems - supporting everything from EV (electrical vehicle) infrastructure to renewable energy and industrial power. Built for high-risk ...

These modular, scalable, and transportable units are emerging as the backbone of the clean energy revolution, enabling better storage, ...

Eaton's xStorage™ Container C20 BESS is series of 20GP containerized battery energy storage systems suitable to use in large-scale utility applications and renewable energy power plants. ...

The EnerC+ container is a battery energy storage system (BESS) that has four main components: batteries, battery management systems (BMS), ...

The BESS Series is a State of the art, high-voltage lithium-ion battery power and energy-storage system containerised in a 20" High Cube container.

These modular, scalable, and transportable units are emerging as the backbone of the clean energy revolution, enabling better storage, enhanced efficiency, and greater ...

Suitable for tech and retail clients across the UK, our battery storage containers help secure lithium and other types of batteries--and can reduce the risk of fire in the event of an ...

Primarily used to store power generated by renewable energy sources such wind and solar, BESS battery systems are key to global carbon reduction. BESS containers are also useful for ...

Primarily used to store power generated by renewable energy sources such wind and solar, BESS battery systems are key to global carbon reduction. ...

The Bluesun 20-foot BESS Container is a powerful energy storage solution featuring battery status monitoring, event logging, dynamic balancing, and advanced protection systems. It also ...

Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the world. Access to a parts supply chain ...

The EnerC+ container is a battery energy storage system (BESS) that has four main components: batteries, battery management systems (BMS), fire suppression systems (FSS), and thermal ...

Our products are engineered and manufactured in the UK, ready to generate and provide electrical power at the client's premises anywhere in the ...

LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar ...
