How does Cape Town support decarbonisation of electricity?

ties and the City of Cape Town's Energy Strategy
THE KEY AREAS OF ALIGNMENT INCLUDE:
Decarbonisation of electricity is evidenced through the City of Cape Town's delivery and support of new renewable energy sources (whether owned or procured by the City or from the private sector) to reduce the local grid emissions factor. This is

Why should Cape Town invest in a load shedding system?

load-shedding, to alleviate energy poverty, and to optimise energy use across Cape Town. This will be backed by a future-fit municipal electricity service, proactive electricity infrastructure upgrades, and support for residents to

How will uncertainty affect the energy system in Cape Town?

ons based in Cape Town.
KEY STRATEGY ASSUMPTIONS
In the short term, these uncertainties are not expected to have a significant impact on the energy system in Cape Town, but this may change in the medium-to-long term, particularly as the City considers an should be supported to make good energy decisions; E

What is Cape Town's energy strategy?

TY OF CAPE TOWN
FOREWORD FROM THE EXECUTIVE MAYOR
With this Energy Strategy, Cape Town is charting the long-term path to 2050, as we make the great transition from centralised supply of unreliable, costly and fossil fuel-based Eskom energy, to an increasingly decentralised supply of reliable, cost-effective, carbon

In this chapter, we overview a wide range of enabling sustainable energy storage technologies, that include long-term energy storage (compressed air, battery, pumped ...
