How much money has the EBRD invested in Croatia?

The EBRD has invested more than EUR5bn in 273 projects in Croatia to date, focusing on supporting reforms, leveraging EU membership benefits, and modernising public-sector enterprises.

Will the EBRD invest in Croatian pension funds?

Croatian pension funds managed by Raiffeisen will match the EBRD's contribution with an equivalent EUR16.8mn investment, while an additional EUR16.5mn grant will come from the EU Modernisation Fund, the bank said.

Will EBRD project help Croatia achieve decarbonisation & energy independence?

The EBRD said the project will contribute to Croatia's goals of decarbonisation and energy independence by reducing reliance on fossil fuels and improving energy system stability amid rising renewable generation.

How will a digital VPP platform help Croatia's green transition?

The facility will enable real-time balancing of electricity supply and demand through the deployment of a digital VPP platform, enhancing Croatia's grid flexibility as it expands its solar and wind power capacity. "This investment marks a milestone in Croatia's green transition," said Miljan Zdrale, EBRD director for Central Europe.

Croatia's first battery energy storage facility connected to the national transmission grid is taking shape near Sibenik, marking a ...

That's where battery storage comes in. IE-Energy Projekt's grid-connected batteries will store excess solar energy and release it when needed. Think of it like a giant ...

The Croatian battery news came in the wake of plans for a standalone utility-scale battery storage system in Serbia. The office of the Mayor of Leskovac revealed plans for a 125 ...

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the ...

The EBRD's direct equity investment will go to IE-Energy Projekt, a newly established joint-stock company developing the greenfield battery energy storage system (BESS) and virtual power ...

Part of these funds will be used to expand the capacity of the liquefied natural gas terminal, and the rest of the money will go to the green transition, so around 500 million euros ...

Ensure your Lithium-ion batteries are stored securely with our range of EN 14470-1 approved Lithium-ion Battery Cabinets and LithiumVault solutions. Explore the range now.

The project involves the construction of a sophisticated 60 MW battery energy storage system (BESS) combined with a virtual power plant (VPP) in Sibenik.

The European Bank for Reconstruction and Development (EBRD) is taking a significant step towards enhancing Croatia's energy landscape with a EUR16.8 million investment ...

Croatia's first battery energy storage facility connected to the national transmission grid is taking shape near Sibenik, marking a significant step in modernising the country's ...

Croatia is moving forward with its largest grid-scale battery energy storage project thanks to a new investment from the European Bank for Reconstruction and Development ...

The development will support the installation of up to 60 megawatts of grid-connected battery storage capacity and the deployment of a VPP platform, allowing real-time ...
