Cyprus Energy Regulatory Authority (CERA) announced the approval earlier this week (18 June) of three projects which will be owned and operated by the Cyprus ...

This landmark project, unveiled by Energy Minister George Papanastasiou at the Green Agenda Cyprus Summit in Nicosia, addresses the critical bottleneck in renewable ...

In 2018, Germany's Autarsys commissioned a 75 kWh lithium-ion NCM battery system in Nicosia, Cyprus. This pilot project aimed to demonstrate the feasibility of scaling up grid-connected ...

Cyprus Energy Regulatory Authority (CERA) announced the approval earlier this week (18 June) of three projects which will be owned ...

Operated by the University of Cyprus, this is the country's largest battery project to date and the first of its kind at this scale. The ...

Cyprus has commissioned its first major battery energy storage system (BESS). Discover the 50 MW project's partners, technical details, and impact on grid stability and ...

Cyprus has commissioned its first major battery energy storage system (BESS). Discover the 50 MW project's partners, technical details, ...

The BESS is integrated with a 5 MWp solar installation that was commissioned around six months ago. Together, the solar and storage components are designed to support ...

Together, the solar and storage components are designed to support grid stability, reduce curtailment, and help

manage peak demand. Images from the site show a ...

In 2018, Germany's Autarsys commissioned a 75 kWh lithium-ion NCM battery system in Nicosia, Cyprus. This pilot project aimed to demonstrate ...

Cyprus will establish its first large-scale electricity storage infrastructure within the next 16 months, Energy Minister George Papanastasiou announced at the Green Agenda ...

Modern lithium batteries retain 80% capacity after 10 years. Warranties guarantee 70% minimum, but Cyprus installations typically exceed this. We maintain dozens of 8-year ...

Together, the solar and storage components are designed to support grid stability, reduce curtailment, and help manage peak demand. ...

Discover how a commercial battery energy storage system in Cyprus can reduce peak demand charges and boost your business's energy efficiency.

Cyprus will establish its first large-scale electricity storage infrastructure within the next 16 months, Energy Minister George ...

This landmark project, unveiled by Energy Minister George Papanastasiou at the Green Agenda Cyprus Summit in Nicosia, ...
