---

Record battery storage installations across Europe mark a significant achievement, but concerns linger as growth begins to slow. SolarPower Europe's latest analysis shows an ...

A report from Solar Power Europe urges policymakers to prioritize battery storage through an EU Energy Storage Action Plan to ensure grid flexibility, especially after the Iberian ...

A report from Solar Power Europe urges policymakers to prioritize battery storage through an EU Energy Storage Action Plan to ...

In the years ahead, storage will play a decisive role in making Europe's energy system more resilient, flexible, and ultimately more ...

By recognising storage systems under EU funding mechanisms and grid planning processes, the EU can unlock their full potential, not only in stabilising energy supply and maximising...

New analysis reveals another year of record installations for European battery storage, despite slower year-on-year growth, according to the latest European Market Outlook ...

SolarPower Europe warns that, despite projecting to reach 400 GWh by 2029, the region needs at least 780 GWh to meet its energy flexibility goals. Battery storage is no longer ...

A new analysis from the latest European Market Outlook for Battery Storage shows that Europe experienced another record-breaking year for battery storage installations, even ...

The EU's Batteries Regulation, which entered into force 2 years ago, helps ensure that Europe's ambition on batteries does not come at an environmental cost.

21.9 GWh of battery energy storage systems (BESS) was installed in Europe in 2024, marking the eleventh consecutive year of record breaking-installations, and bringing ...

Battery energy storage systems (BESS) are the rising stars of Europe's clean energy mission. They are key elements in our quest to meet ambitious decarbonisation and climate change ...

In the years ahead, storage will play a decisive role in making Europe's energy system more resilient, flexible, and ultimately more affordable. The question is no longer ...
