In response to the needs of our customers, we have developed this horizontal screen 6A with multi-mode intelligent charger:1. Power mode: it can directly charge.....

2PCS 30A PWM Solar Charge Controller, 12V 24V Dual USB Solar Panel Battery Intelligent Regulator with LCD Display, Auto Parameter Adjustable, Timer Setting, Multiple Load Control ...

Suitable for solar panels up to 480W (12V battery or battery bank) or 960W (24V system). Current limiting function (40A) allows possibility of adding more solar panels in the future.

Suitable for solar panels up to 480W (12V battery or battery bank) or 960W (24V system). Current limiting function (40A) allows possibility of adding ...

Suitable for solar panels up to 720W (12V battery or battery bank) or 1440W (24V system). Current limiting function (60A) allows possibility of adding more solar panels in the future.

When using a 12V battery, the solar panel can be a solar photovoltaic panel with a no-load voltage of 15-25V and a power within 240W. Solar photovoltaic panels with no-load voltage ...

This smart controller ensures optimal charging performance for your solar panel setup without any manual intervention. With its advanced technology, you can trust the FOXSUR controller to ...

Whether you're hiking in the mountains or enjoying a day at the beach, the Foxsur solar panels provide a dependable energy source to meet your needs. Versatile and Easy to Use Multiple ...

Main products Battery Charger, Power Inverter and 346 more Products from Dongguan Foxsur Electronic

Equipment Co., Ltd. on Alibaba

When using a 12V battery, the solar panel can be a solar photovoltaic panel with a no-load voltage of 15-25V and a power within 360W. Solar photovoltaic panels with no-load voltage ...

When using a 12V battery, the solar panel can be a solar photovoltaic panel with a no-load voltage of 15-25V and a power within 120W. Solar photovoltaic panels with no-load voltage ...
