What is the 5.5kW Hybrid Inverter?

The 5.5kW Hybrid Inverter is a mid-range on-grid parity inverter that is our best-selling model with 2 MPPT ports. It is perfect for most applications, especially for domestic premises with sufficient roof space for solar or wind power.

How much does a solar inverter cost?

A good-quality 5kW single-phase solar inverter costs \$1,320 - \$2,500. A 3-phase solar inverter costs between \$1,900 and \$2,300, depending on the quality. While inverters have a 15-year lifespan, but some makes and models are more reliable than others. Speak to your local installer about the best brands and models currently available.

What is a 5500 Watt hybrid inverter?

One phase 5500 watt hybrid inverter for off grid solar system, wide input voltage range and high efficient MPPT up to 93%, perfect electric protection functions. Combine power for self-use and grid connection. The priority supply sequence of solar, battery power and city power can be set.

Can a 5kw inverter be used with a 6.6kw Solar System?

For example, a 5kW inverter is suitable for use with a 6.6kW solar system. There are system losses as solar panels convert sunlight to electricity. It allows for the use of lower-rated inverters. Make sure that the inverter you buy has a long enough warranty.

Find reliable 5.5 kW inverter prices from top suppliers. Perfect for solar systems, our inverters offer high efficiency and advanced features. Buy now!

Inverter Generator 5.5kw with Electric Start gives you ...

Inverter Generator 5.5kw with Electric Start gives you reliable quiet power whenever and where ever you need

it. When you need a lot of power, the BQH6200E has the answer with 5.5kw of ...
