What is the price of electricity in Laos?

Laos, September 2022: The price of electricity is 0.034 U.S. Dollar per kWh for households and 0.000 U.S. Dollar for businesses which includes all components of the electricity bill such as the cost of power, distribution and taxes.

What is the price framework for electricity imports from Laos?

(KPL/VNA) The Ministry of Industry and Trade (MoIT) has issued a decision approving a price framework for electricity imports from Laos starting from December 31, 2025. The maximum price for hydroelectric power plants is set at 6.78 US cents/kWh, down from the current rate of 6.95 cents/kWh.

Why is Laos getting a higher electricity rate?

The rate hike comes as electricity consumption in Laos climbs, spurred by rising ownership of air conditioners and home appliances, as well as a more active business sector. By the end of 2024, Laos recorded around 21,300 registered companies -- the highest in a decade.

These retail prices were collected in June 2025 and include the cost of power, distribution and transmission, and all taxes and fees. Compare Laos with 150 other countries.
