What is a D-curve breaker?

D-curve breakers are suitable for circuits with high inrush currents, such as motors. They handle 10-20 times the nominal current. D-curve breakers are more sensitive to tripping than B- and C-curve breakers, making them unsuitable for circuits with low inrush currents.

What is a C-curve breaker?

C-curve breakers are commonly used to protect circuits with devices that have a relatively low inrush current, such as lighting, outlets, household appliances, and small machinery. These breakers handle 5-10 times the nominal current and react slower to overloads and short circuits compared to B-curve breakers, as their tripping current is higher.

What does a circuit breaker do?

A circuit breaker, also known as an automatic fuse, is a crucial component of electrical panels. It protects circuits and users by detecting the flow of electricity and shutting it off when the current exceeds the allowable threshold. Circuit breakers quickly react to overload situations, preventing equipment damage and reducing fire risks.

This Acti9 iC60N is a low voltage miniature circuit breaker (MCB). It is a 3P circuit breaker with 3 protected poles, a rated current of 25A, and a D tripping curve.

The Eaton Miniature Circuit Breaker redefines reliability and performance. Designed for industrial and advanced commercial applications, this 50 A, three-pole plus neutral device ensures ...

Wesco Electrical LTD offers a wide range of Circuit Breakers - MCB Triple Pole - D Curve in Ireland. Available for express delivery. Order Online Today.

Buy MCBs at [Screwfix.ie](https://www.screwfix.ie). Protects a circuit. Automatically trips if overcurrent is detected. Buy online and

collect in store in as little as 1 minute.

This Acti9 iKQ product is a low voltage miniature circuit breaker (MCB). It is a 3P circuit breaker with 3 protected poles and 63A In rated current and D tripping curve.

Farnell Ireland offers fast quotes, same day dispatch, fast delivery, wide inventory, datasheets & technical support.

At Klinkmann Store, we offer a wide range of high-quality and safe circuit breakers from Chint and Rockwell Automation at competitive prices. Circuit breakers from Rockwell Automation and ...

Wesco Electrical LTD offers a wide range of MCB Single Pole - D Curve in Ireland. Available for express delivery. Order Online Today.

Leading Irish Electrical Wholesaler since 1935. Expert in electrical equipment, lighting, wiring accessories, CCTV, fire alarms, and more. Nationwide branches, committed to quality and ...
