Hiltra supplies a complete range of fireproof battery cabinets, battery containers and battery boxes for the safe storage and controlled charging of lithium-ion batteries.

Monitoring backup batteries and battery cabinets for fire prevention and thermal runaway are highly necessary for critical facilities. Battery Monitoring devices, including the patented ...

Air quality monitoring and sampling occurred during and after the fire and found no risks to public health. Following the incident, EPA ...

A battery charging cabinet is essential for safely storing and charging lithium-ion batteries. Discover key features, benefits, fire safety insights, and best practices to enhance ...

The CellBlock EMS (Exhaust Monitoring System) is a cabinet add-on that enhances battery charging and safe storage. Designed for use in a climate controlled environment, it regulates ...

Protect your facility from lithium battery fire risks with fire-resistant storage and charging cabinets designed to reduce thermal runaway hazards.

The SYSBEL Fire Resistant Battery Charging Cabinet is a high-protection device designed for safe battery charging and storage. It features fire resistance, explosion-proof design, real-time ...

The Honeywell XLS120 is an intelligent fire alarm control panel designed for small- to medium-scale facilities.

Our lithium-ion battery charger cabinets, a pivotal part of our safety storage solutions, ensure comprehensive
