Where can I find an uninterruptible power supply?

Search Newegg.com for uninterruptible power supply. Get fast shipping and top-rated customer service.

Why do you need an uninterruptible power supply (UPS)?

Power outages and electrical fluctuations can cause serious disruptions, whether you're working from home, running a business, or using a gaming PC. An uninterruptible power supply (UPS) helps prevent sudden shutdowns, data loss, and hardware damage by providing backup power when your main electricity fails.

Can a DIN rail power supply be used as a redundancy module?

With the addition of an external redundancy module the SDN can also be used for true redundant operation including 2N and N+x configurations. The compact, lightweight DIN Rail power supplies come in output voltages from 5 to 48 VDC and power ratings of up to 100 Watts.

Sola/Hevi-Duty offers a wide variety of uninterruptible power supplies which consist of four topologies and classes of power protection.
