What is Battery Centre Gothenburg?

It will be 100 percent powered by fossil-free energy and the aim is to supply batteries for approximately half a million electric cars per year. Nearby at Lindholmen, Battery Centre Gothenburg will open on 24 January. There, both industrial personnel and students will be trained and educated in battery technology and production.

Is Gothenburg a battery cluster?

Gothenburg is an innovation hub and a leader in the transition towards sustainable industry. Now a battery cluster is taking shape, characterised by something that has served the region well: collaboration. SEEL Swedish Electric Transport Laboratory, Sweden's testbed for electromobility.

What's going on in Gothenburg?

Gothenburg is a hub for innovation and at the forefront of sustainable industry. Now a battery cluster is taking shape, characterised by something that has served the region well: collaboration. Near Volvo Car's production plant and new battery assembly factory in Torslanda, a gigafactory is under construction.

What is Volvo's new research and Development Center in Gothenburg?

Established in 2022, the company has set up a research and development center in Gothenburg to build on the battery expertise within both companies and develop next-generation, state-of-the-art battery cells and vehicle integration technologies, specifically developed for use in Volvo cars.

Battery energy storage system operates to fulfill the energy grid stabilization requirements in Sweden.

CNTE's Commercial and Industrial (C& I) energy storage system, now operational in the city, offers critical services including ...

AF Bygg Väst, a part of AF Gruppen Sverige, has been commissioned by the Port of Gothenburg to construct a new power ...

NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery factory in Torslanda, Gothenburg.

In the south-western part of the Högsbo industrial area in Gothenburg, Stena Fastigheter and Ikano Bostad are planning for a new ...

Discover how collaboration is fueling Gothenburg's thriving battery cluster, including advancements in hydrogen fuel cell tech and sustainable transport solutions.

CNTE's Commercial and Industrial (C& I) energy storage system, now operational in the city, offers critical services including frequency modulation, load leveling, and energy ...

Construction has begun on Sweden's largest Battery Energy Storage System (BESS) undertaken by Neoen, an Independent Power Producer and Nidec, a system integrator.

Summary: Gothenburg's new energy storage project addresses renewable energy challenges through cutting-edge battery systems. This article explores how this initiative supports ...

NOVO Energy, the joint venture between Northvolt and Volvo Cars, celebrated the start of construction for its highly anticipated battery ...

AF Bygg Väst, a part of AF Gruppen Sverige, has been commissioned by the Port of Gothenburg to construct a new power station in Skandiahamnen, Gothenburg. The contract is ...

As Europe's sixth-largest port city, Gothenburg has become a living laboratory for sustainable energy solutions. The ongoing energy storage project - comparable to building a "city-sized ...

These two companies are the engine for the new, growing industry in Gothenburg and West Sweden. But the cluster consists of many different companies and stakeholders, and ...

Discover how collaboration is fueling Gothenburg's thriving battery cluster, including advancements in hydrogen fuel cell tech and ...

In the south-western part of the Högsbo industrial area in Gothenburg, Stena Fastigheter and Ikano Bostad are planning for a new sustainable district with approximately ...
