Will Tata Power install 100 MW battery energy storage system in Mumbai?

Mumbai: Tata Power announced on Monday that it has received approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100 MW Battery Energy Storage System (BESS) in Mumbai over the next two years.

Where will a 100 MW power system be deployed in Mumbai?

The comprehensive 100 MW system shall be deployed across 10 strategically selected sites, particularly near load centres throughout Mumbai distribution, with centralised supervision and regulation from Tata Power's Power System Control Centre (PSCC).

How a 100 MW power system will improve Mumbai's power network resilience?

This will prevent large-scale blackouts and enhance Mumbai's power network resilience. The entire 100 MW system will be installed in the next two years across 10 strategically located sites, especially near load centres across Mumbai Distribution, centrally monitored and controlled from Tata Power's Power System Control Center.

What are the benefits of a power supply system in Mumbai?

It will protect essential services including the Mumbai Metro, hospitals, airports, and data centers from large-scale blackouts. The system is also designed to optimize reactive power management, improve peak demand efficiency, and reinforce the city's overall electricity infrastructure.

With real-time monitoring from Tata Power 's Power System Control Center (PSCC), the BESS will strengthen Mumbai's grid resilience, support clean energy adoption, and fulfill ...

Electric utility and generation company Tata Power has received regulatory approval to deploy a centrally controlled battery ...

Mumbai: Tata Power announced on Monday that it has received approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100 MW Battery Energy ...

Whether for commercial & industrial or large-scale front of the meter projects, we offer integrated solutions for solar power, ...

Tata Power obtained authorization from the Maharashtra Electricity Regulatory Commission to set up a 100-MW battery energy storage system at 10 locations in Mumbai ...

The system will feature high round-trip efficiency with reduced auxiliary consumption, enhancing operational performance and extending the storage system's lifespan to support Mumbai's ...

Tata Power will install a 100 MW battery energy storage system to facilitate peak load management in Mumbai's power network. It will implement the system across ten ...

Whether for commercial & industrial or large-scale front of the meter projects, we offer integrated solutions for solar power, battery energy storage systems (BESS), energy management ...

Tata Power, India's largest integrated power company, has secured approval from the Maharashtra Electricity Regulatory Commission (MERC) to install a 100MW Battery ...

The Ministry hosted a Conference on "Energy Storage - Driving the Clean Energy Transition" on World Energy Storage Day in New Delhi on 22 September 2025. The ...

As renewable energy adoption accelerates, BESS plays a pivotal role in enabling a smoother transition. Compared to conventional alternatives, ...
