-----

"The fundamentals for storage are really strong in Ireland, because we're a relatively isolated system on the periphery of Europe. As ...

SSE has grown its secured battery energy storage system (BESS) pipeline in Ireland to 300MW with the acquisition of the 120MW/240MWh Thornsberry BESS project near ...

Lightsource BP has proposed a significant 57MW solar and 54MW battery energy storage project in Carrickmacross, County Monaghan, Ireland. The company plans to outline ...

In a ground breaking development for renewable energy in Ireland, FuturEnergy Ireland has proposed a pioneering iron-air battery storage project in Donegal County. If ...

The Gorman battery system, with an installed capacity of 50 MW, is our world's first commercial-scale battery system and the first in Ireland. This project is part of our commitment to ...

Wind and solar energy play a key role in Ireland's transition from fossil-fuel-based electricity generation. But these precious resources ...

Wind and solar energy play a key role in Ireland's transition from fossil-fuel-based electricity generation. But these precious resources will need to be stored for times when the ...

With a strong pipeline of further energy storage projects, Ireland's electricity system is becoming more flexible and agile facilitating the greater integration of cheaper renewable ...

Eir Solus is a leading Irish owned renewable developer, working to deliver solar energy and battery storage
