-----

This compound belongs to the class of organic compounds known as purine 2',3'-dideoxyribonucleosides. These are compounds consisting of a purine linked to a ribose which ...

The Soaltee Kathmandu has set a positive and exemplary commitment to sustainability by embracing solar energy. This initiative paves the way for a cleaner future ...

Didanosine is used along with other medications to treat human immunodeficiency virus (HIV) infection. Didanosine is in a class of medications called nucleoside reverse transcriptase ...

To access additional data, including an interactive map of global solar farms, a downloadable dataset, and summary data, please visit the Global Solar Power Tracker on the Global Energy ...

Didanosine belongs to a class of medicines called nucleoside analogues or nucleoside reversetranscriptase inhibitors (NRTIs). Intracellularly, didanosine is converted by cellular ...

The successful completion of The Soaltee Kathmandu's solar project not only marks a milestone but also signals a promising future for sustainable ...

Discover Nepal Kathmandu Solar Project, providing innovative and sustainable energy solutions. Learn how we are transforming communities with reliable, clean solar power and supporting a ...

Didanosine delayed-release capsules belong to a class of drugs called nucleoside analogues. Didanosine delayed-release capsules will not cure your HIV infection.

Kathmandu, Bagmati Province, Nepal (latitude 27.7142, longitude 85.3145) is a suitable location for generating solar photovoltaic (PV) power throughout the year due to its ...

Didanosine is used along with other medications to treat human immunodeficiency virus (HIV) infection. Didanosine is in a class of medications called nucleoside reverse ...

Renewable and Sustainable Energy Laboratory (RSEL) generates renewable energy knowledge, innovates designs, and mitigates climate change. We focus on bio-energy and solar energy, ...

It is used in combination with other medications as part of highly active antiretroviral therapy (HAART). It is of the reverse-transcriptase inhibitor class. Didanosine was first described in ...

Nepal Solar Farm Limited is a pioneering renewable energy company based in Kathmandu, Nepal. Established on September 18, 2017, our mission is to harness the abundant solar ...

Along with other programs and projects, AEPC is executing a project "Promotion of Solar Energy in Rural and Semi-urban Regions of Nepal" with financial assistance from the Federal ...

A comprehensive solar energy initiative covering 500 rooftops across Kathmandu Valley. This distributed solar project aims to reduce dependency on grid electricity and promote renewable ...

Didanosine is an oral medication that is used for the treatment of infections with the human immunodeficiency virus (HIV). It is in a class of drugs called reverse transcriptase inhibitors ...
