SUNOTEC acquires 400 MWp solar-plus-600 MWh storage project in Latvia, targeting grid connection by 2027 and bolstering the country's expanding clean-energy ambitions.

From residential battery walls to 100MW grid-scale installations, Latvian power storage manufacturers deliver solutions that balance innovation with practicality.

What are energy storage technologies? Informing the viable application of electricity storage technologies, including batteries and pumped hydro storage, with the latest data and analysis ...

Bulgarian-German renewable energy development and construction company SUNOTEC has acquired a project in Latvia that combines 400 MWp of solar capacity with 600 ...

SUNOTEC is a leading European solar solutions provider with a c.11% market share in the construction of utility-scale photovoltaic plants ...

Large-scale BESS projects in Latvia are being deployed by private developers and operators, including Utilitas Wind and Niam Infrastructure/Evecon, as well as its transmission ...

As we approach Q4 2025, industry watchers are keeping tabs on Latvia's first gigafactory for battery cells. When operational, it'll slash import costs by 60% and create 800+ skilled jobs.

Clean energy investment company Niam Infrastructure and Estonian renewable power developer Evecon have announced plans to build a new solar-plus-storage portfolio in ...
