---

Completed 2MW solar plant in Macedonia using high-efficiency polycrystalline panels, ensuring stable and efficient renewable energy output.

In order to deal with the current imbalance between supply and demand and overcapacity in the market, the top ten photovoltaic glass manufacturers including Xinyi Solar and Flat Glass ...

As the largest solar-plus-storage project in North Macedonia and one of the first in the region, it is poised to play a key role in supporting the country"s energy transition and ...

This project marks more than just another solar installation--it is a symbol of progress. It demonstrates how strategic public-private partnerships and advanced PV ...

Discover how EcoSync and KTM Energy Solutions delivered a 20MW utility-scale solar power project in Macedonia using advanced ...

A significant turning point in North Macedonia"s solar energy landscape occurred in December 2020 with the launch of the first 1.48 ...

A significant turning point in North Macedonia"s solar energy landscape occurred in December 2020 with the launch of the first 1.48 MW solar plant by EVN Macedonia in Voshanci.

Discover how EcoSync and KTM Energy Solutions delivered a 20MW utility-scale solar power project in Macedonia using advanced 550W double-glass panels. Boosting clean ...

In a major push towards a sustainable energy future, the European Bank for Reconstruction and Development (EBRD) and the German development bank KfW are ...

This project marks more than just another solar installation--it is a symbol of progress. It demonstrates how strategic public-private ...

This is an important step in strengthening North Macedonia's energy transition, ESM added. The company received EUR 87 million for the construction of the largest photovoltaic ...

Completed 2MW solar plant in Macedonia using high-efficiency polycrystalline panels, ensuring stable and efficient renewable energy ...

Republic of Macedonia Solar PV Glass Market is expected to grow during 2025-2031

Once operational, the project is set to become North Macedonia's largest solar asset, capable of generating around 180 GWh of electricity annually.
