-----

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades ...

We've long had a reputation as a provider of never-before-seen power products -- and will offer you all the engineering and manufacturing support you need to customize your generator ...

Delivered pre-configured within a 20" HC shipping container that easily converts into an installation-ready platform, the system is simple to transport and quick to assemble and ...

Container power generators are available with a rated capacity of 30 kVA to 3000 kVA. Depending on the asked performance and execution, the generators are mounted in ...

Medium voltage load banks. Available in wide range of voltages up to 33kV in both resistive and resistive-reactive configuration.

The pre-assembled and cost-effective solution is integrated into a prefabricated 20ft container, ideal for easy transportation and quick installation. The Plug-and-Play design makes grid ...

Medium voltage containerised power substations for the solar, mining, tunnelling and construction industries. Containers substation are offered ...

Medium voltage containerised power substations for the solar, mining, tunnelling and construction industries. Containers substation are offered as standard or bespoke packages to suit the ...

We've long had a reputation as a provider of never-before-seen power products -- and will offer you all the

engineering and manufacturing ...

The solution is the ideal choice for next-generation PV power plants and battery-storage power plants operating at 1500 V DC. Delivered pre-configured on a 20-foot container-integrated ...

Jenbacher offers containerized generator sets based on our Type 2, 3, 4, and 6 gas engines. Leveraging the expertise acquired during several decades with more than 3,000 containerized ...

View our prefabricated container substation product, which allows for mobility and rapid deployment. Join META Power Solutions online to learn more ...

Container-MVar is a fully engineered, medium-voltage, metal-enclosed capacitor bank (Power-MVar or Synchro-MVar from Powerside) housed entirely in a standard 20" or 40" ISO container.

View our prefabricated container substation product, which allows for mobility and rapid deployment. Join META Power Solutions online to learn more or contact us today to request a ...

Delivered pre-configured within a 20" HC shipping container that easily converts into an installation-ready platform, the system is simple to ...
