-----

We develop a prototype of a proposed mobile base station and test its operation in an outdoor environment. The experimental results provide a sufficient data rate to make an independent ...

Land Mobile Radio (LMR) is the Army's primary voice capability for first responders. LMR provides secure, portable communications; network ...

Enable the nation's emergency response community to communicate and share information securely across communications technologies in real ...

The base station carried by the movable platform can react to changes in the network in real time, allowing more flexibility and introducing a new degree of freedom for the emergency ...

LMR systems typically consist of handheld portable radios, mobile radios, base stations, a network, and repeaters. This integration should allow voice and data to be shared between ...

Enable the nation's emergency response community to communicate and share information securely across communications technologies in real time, including all levels of government, ...

Land Mobile Radio (LMR) is the Army's primary voice capability for first responders. LMR provides secure, portable communications; network coverage on/off Army cantonment areas, housing ...

An emergency communication system is necessary for first responders, who need to enter areas with no network coverage or damaged network infrastructure due to n

We develop a prototype of a proposed mobile base station and test its operation in an outdoor environment.

The experimental results ...

We develop a prototype of a proposed mobile base station and test its operation in an outdoor environment. The experimental results provide a sufficient data rate to make an ...

Our Mobile Command Centers, also known as Mobile Emergency Response Centers (MERC(TM)), are deployed in countries around the world. Our clients range from the private sector to local, ...

At the same time, unusual peaks in traffic load could lead to much higher blocking probability for critical communication. A possible solution for such scenarios is through the use of mobile ...

Our Mobile Command Centers, also known as Mobile Emergency Response Centers (MERC(TM)), are deployed in countries around the world. Our ...

Access to reliable communications services is a key factor in any emergency situation. ASTRI has succeeded in producing a mobile base station that allows for cost-efficient, low-latency, and ...
