What is a 50kw off-grid Solar System?

In a 50kW off grid solar system, you will get solar panels, off-grid solar inverter, solar batteries and other solar accessories. This system is specially designed to provide long power backups during power outages or nights. Solar panels generate electricity by absorbing the sunlight in the daytime and run your connected load.

Can a 50kw Solar System be used for industrial applications?

Maxbo's 50kW solar system is also adaptable for industrial applications, where high-powered equipment and continuous operation are essential. Our systems are engineered with robust components, reinforced solar panels, and heavy-duty inverters capable of handling the demands of industrial machinery.

Which battery bank should I choose for the Instant off-grid containers?

Choose between a GEL Deep Cycle Sealed Lead Acid battery bank or a next-gen Lithium Iron bank. See below for more details and pictures. Pre-configured by RPS engineers. 370W solar panels power the Instant Off-Grid Containers. Each panel measures 69.1" x 40.9" x 1.4".

Power heavy machinery, irrigation systems, or remote facilities with a 50kW off-grid solar system. Scalable design with battery backup. Request a custom quote today!

Beyond mounting the solar panels on the roof of the container on delivery, NO wiring or assembly is required to have your own storage, living space ...

Solar shipping container powers irrigation and tools in off-grid farms. Ideal for remote agriculture needing clean, mobile energy.

For farms, a 50kW solar system offers a sustainable solution for daily power needs. It supports essential farm activities, such as irrigation, crop processing, and livestock management, ...
