Our current projects include several large-scale solar developments, battery energy storage systems co-located with our existing power stations, and expansion of the Shoalhaven pumped ...

Let's cut to the chase: Oslo builds largest energy storage station, and it's not just another infrastructure project. This 1.2 GWh behemoth, set to power 180,000 homes during ...

Technip Energies has been awarded a large EPC contract by Hafslund Oslo Celsio, the largest supplier of district heating in Norway, for a world-first carbon capture and storage (CCS) ...

The Norwegian Government has announced the launch of a large-scale carbon capture and storage (CCS) project located across multiple locations in Norway.

Norway has presented Longship as the "world's first full-scale value chain" for capture and storage of carbon, one of the greenhouse ...

We have new owners and a new name, we started a pioneering project to construct a facility for full-scale carbon capture and storage at our Klemetsrud waste incineration plant, and we had ...

Using disused mining infrastructure, the Oslo system lifts 8,000-ton concrete blocks during surplus energy periods. When demand peaks, controlled descents generate ...

The project integrates CO2 capture at Heidelberg Materials' cement plant in Brevik and, by 2029, Hafslund Celsio's waste-to-energy plant in Oslo. Captured CO2 is transported ...

Norway has presented Longship as the "world's first full-scale value chain" for capture and storage of carbon, one of the greenhouse gases that cause climate change.

Why This Mega-Project Matters (and Why You Should Care) a mountain range near Oslo where three peaks aren't just scenic viewpoints, but giant energy storage power ...

The U.S. Department of Energy's Office of Clean Energy Demonstrations on Sept. 5 opened applications for up to \$100 million in funding to support pilot-scale energy storage ...
