Designing a 48V 100Ah LiFePO4 battery pack for telecom base stations requires careful consideration of electrical performance, thermal management, safety protections, and ...

In power distribution PCBs for base stations, a multilayer design is often necessary to separate power and signal layers. Heavy ...

The deployment of next-generation networks (5G and beyond) is driving unprecedented demands on base station (BS) power efficiency. Traditional BS designs rely h

Send an HTTP request to SharePoint action in Power automate flows works with SharePoint REST APIs. Follow below Microsoft official documentations for SharePoint REST ...

Modern energy storage design isn't just about connecting batteries - it's about creating Frankenstein's monster of electrical engineering, urban planning, and fire safety ...

0 I have data being pulled from a SharePoint list to an Excel file and I'm trying to use Power Automate online to create a scheduled flow that will trigger the "Refresh All" button ...

I have a table PRODUCTS in Power BI that has a column named Product_Group. When I go to transform data I can see all the Product groups. (DirectQuery connection, it is ...

The answer lies in rigid architectures struggling to adapt to evolving energy demands and frequency bands. Modular design emerges not just as an engineering trend, but as the missing ...

I am writing a Power automate to copy emails from an Outlook mailbox to SharePoint. I am using Get emails (V3) and want to retrieve emails received on a particular date.

Below are some of the reasons you get the network error when using a patch function in Microsoft Power Apps applications: One of the columns in your SharePoint list is ...

In the vast, invisible web of mobile communication networks, millions of base stations act as the "heartbeat" that keeps the system alive. Spread across urban, rural, and even remote desert ...

Complete power distribution guide for Stationeers bases. Master hub-based networks, zone isolation, and solar priority systems with detailed examples.

Extract Value from Array in Power Automate Asked 1 year, 2 months ago Modified 9 months ago Viewed 6k times

This study develops a mathematical model and investigates an optimization approach for optimal sizing and deployment of solar photovoltaic (PV), battery bank storage ...

In Power Automate, within the Power BI connector, you'll find the "Run a query against a dataset" action. Take note: this can only return one table at a time with max of 1,000 ...

The optimization of PV and ESS setup according to local conditions has a direct impact on the economic and ecological benefits of the base station power system. An ...
