How much does it cost to install solar panels?

Multiple pieces of equipment, such as racking, wiring, and inverters, must be installed so the solar panels can power your home. Solar panels and other equipment: Believe it or not, solar panels make up just 12% of total installation costs on average, with one solar panel costing about \$200 before installation costs are considered.

How much do commercial solar panels cost?

Generally, installing solar panels on businesses costs a bit less per watt because the systems are larger, but the total costs will be higher. In 2025, the average cost for commercial solar panels is just about \$2.00 per watt. There is a lot to consider when figuring out how much you'll spend on a solar installation.

Do used solar panels cost more than new?

Used solar panels will cost less than new solar panels, however, we wouldn't recommend using them to power your home. Used solar panels likely won't be covered under the manufacturer's warranty, and you'll sacrifice performance. How much do solar panels cost if I get multiple quotes?
