THES38BL-100/215 liquid-cooled energy storage cabinet with 100kW/215kWh capacity. Safe, efficient LFP battery system for commercial and industrial applications.

The 215kWh energy storage cabinets are high-performance solutions for industrial and commercial energy management. Available in both air-cooled and liquid-cooled designs, ...

Before using this product, please read this manual carefully and operate the energy storage system according to the methods described in this manual to avoid equipment damage or ...

215 energy storage cabinets are engineered with advanced technology that caters to various applications, such as residential energy independence and large-scale ...

The 215kWh liquid-cooled industrial and commercial energy storage cabinets is optimized and integrated by the battery management system (BMS), thermal management, battery, power ...

High-voltage 215kWh outdoor battery cabinet with built-in cooling, fire protection & monitoring. Ideal for microgrids, solar-diesel hybrid systems ...

The system adopts a high-capacity density lithium iron phosphate battery with a 1000V platform and plate exchange liquid-cooling technology, equipped with a 100kW energy storage ...

High-voltage 215kWh outdoor battery cabinet with built-in cooling, fire protection & monitoring. Ideal for microgrids, solar-diesel hybrid systems & EV charging stations.

Winline 215kWh Liquid-cooled Energy Storage Cabinet converges leading EV charging technology for

electric vehicle fast charging.

A 215kWh energy storage cabinet is an efficient commercial and industrial (C& I) energy storage system using LFP (LiFePO₄) battery cells. It offers high energy density, excellent safety, and ...

The 215kW Intelligent Energy Storage Liquid-Cooled Integrated Cabinet is specifically designed for commercial and industrial scenarios. It uses liquid-cooling temperature control technology ...
