Ensure lithium batteries, chargers, and associated equipment are tested in accordance with an appropriate test standard (e.g., PAT Testing) and are rated for their intended use.

We can test and evaluate your lithium-ion batteries and battery packs for tools, lawn and garden machinery to the relevant standards and regulations in your target markets.

Each distinct shipping guide in this document refers to the regulatory requirements for a specific lithium cell/battery type, configuration, and size. In this way, a shipper will easily find the ...

Although conventional battery chemistries, such as lead acid, pose fire and explosion hazards, the combination of high-energy volatile chemistry ...

Power tools demand specialized battery solutions that deliver exceptional performance under challenging conditions. With advancements in battery ...

Although conventional battery chemistries, such as lead acid, pose fire and explosion hazards, the combination of high-energy volatile chemistry packed into a small volume requires special ...

Power tools demand specialized battery solutions that deliver exceptional performance under challenging conditions. With advancements in battery technology, professionals now have ...

On jobsites, lithium batteries support lightweight, portable tools while delivering the energy needed for demanding tasks. Their compact size, fast charging ability, and cold ...

IEC/UL/CSA 62841 is the international standard series that addresses the safety of electric, motor-operated, or

Requirements for lithium batteries for power tools

magnetically driven tools with provisions for hand-held tools, ...

IEC/UL/CSA 62841 is the international standard series that ...

On jobsites, lithium batteries support lightweight, portable tools while delivering the energy needed for demanding tasks. Their ...

Lithium-ion batteries have changed the world of power tools like few other technologies have. While misuse of tools and batteries can lead to unsafe situations, operation has become safer ...

We can test and evaluate your lithium-ion batteries and battery packs for tools, lawn and garden machinery to the relevant standards and ...

Locate collection sites in your community and check with your local authorities to determine proper recycling methods for used batteries.

The hazards and controls described below are important in facilities that manufacture lithium-ion batteries, items that include installation of lithium-ion batteries, energy storage facilities, and ...
