---

Slovenia approves a new 30 MW solar power plant, a major step in its renewable energy goals. Discover how this project supports EU ...

Slovenian glassmaker Steklarna Hrastnik has installed a solar power plant. The generated electricity from the plant will be used for the ...

Segment 5 of the Zlatolicje Solar Power Plant will be installed on the left bank of the outflow canal of Zlatolicje, the largest Slovenian hydro power plant, from the bridge across the canal to the ...

Gen-I has set up a solar PV system atop a glass factory in Slovenia. The array's electricity will be used to generate hydrogen from ...

The Prapretno Solar Power Plant in Slovenia, developed by state-energy producer HSE on a rehabilitated landfill near Hrastnik, is ...

Slovenia is preparing to make a groundbreaking move in renewable energy with the launch of its largest solar project to date--a 140 MW floating solar power plant on Lake ...

The Prapretno Solar Power Plant in Slovenia, developed by state-energy producer HSE on a rehabilitated landfill near Hrastnik, is undergoing expansion and upgrades.

As their development is geared towards carbon-free energy which goes beyond the traditional competitive energy supply, GEN-I was ...

Segment 5 of the Zlatolicje Solar Power Plant will be installed on the left bank of the outflow canal of Zlatolicje, the largest ...

Slovenian glassmaker Steklarna Hrastnik has installed a solar power plant. The generated electricity from the plant will be used for the production of hydrogen and help reduce ...

Slovenian glassmaker Steklarna Hrastnik has installed the first B2B solar power plant in Slovenia, set up by GEN-I and Razvojni center ...

The first B2B solar power plant in Slovenia has been operationalized at Steklarna Hrastnik. GEN-I set-up the power plant in the scope of its partnership with Razvojni center ...

Gen-I has set up a solar PV system atop a glass factory in Slovenia. The array's electricity will be used to generate hydrogen from an electrolyzer. The green hydrogen is then ...

Slovenia approves a new 30 MW solar power plant, a major step in its renewable energy goals. Discover how this project supports EU targets and a greener economy.

Slovenia's EBRD-funded solar plants boost clean energy and support large-scale renewable growth and green infrastructure upgrades.

Slovenian glassmaker Steklarna Hrastnik has installed the first B2B solar power plant in Slovenia, set up by GEN-I and Razvojni center Novi materiali (RCeNeM). Steklarna ...
