---

The offshore photovoltaic project is located in Dongying, East China's Shandong Province. Funded by Guohua Energy Investment Co, a CHN Energy subsidiary, it is the ...

Built in a seawater environment, the project represents a significant breakthrough in floating solar technology for coastal and shallow-sea regions. Combined with a previously ...

China's first floating solar power project operating entirely in a seawater environment has officially been completed and put into use in Qingdao City, east China's Shandong ...

Sinopec has commenced operations of China's first commercial floating offshore photovoltaic (PV) project in a full-seawater environment.

The state-owned oil company Sinopec, through its subsidiary Qingdao Refining and Chemical Company, has just inaugurated the first ...

China's CHN Energy has launched full operations of the 1GW HG14, the world's largest floating solar project, featuring innovative weather-resistant design and powering a ...

Sinopec has expanded a floating solar array at its Qingdao Refinery, aiming to cut the cost of green hydrogen with on-site renewable ...

The state-owned oil company Sinopec, through its subsidiary Qingdao Refining and Chemical Company, has just inaugurated the first floating solar plant in open sea in the ...

The offshore photovoltaic project is located in Dongying, East China's Shandong Province. Funded by Guohua Energy Investment Co, ...

In a statement released on Wednesday (13 November), CHN Energy said it had successfully connected the project to the grid, claiming it is the "first and largest of its kind in ...

Sinopec has expanded a floating solar array at its Qingdao Refinery, aiming to cut the cost of green hydrogen with on-site renewable energy.

In a groundbreaking shift from coal to clean energy, China has launched the world's largest floating solar farm atop a flooded former coal mine in Huainan, Anhui Province.

In a statement released on Wednesday (13 November), CHN Energy said it had successfully connected the project to the grid, claiming ...

China has brought a 1 GW offshore solar power plant online off the coast of Dongying, Shandong province, combining PV with energy storage and aquaculture in what is now the ...
