-----  
What is a foldable container?

These foldable containers are made of high-density polyethylene(HDPE),a durable material that will protect your product throughout the duration of the container's life. These foldable containers offer key features that make using our plastic containers simple. Collapsible functionality brings significant savings on inbound freight.

What is a collapsible container?

Collapsible containers are a type of storage unit that can be folded down when not in use. This feature allows for space-saving and efficient transportation. They are often made of durable materials like plastic or metal and come in various sizes. Why should I use collapsible containers? Collapsible containers are versatile and offer many benefits.

Where can I buy collapsible containers & pallet sets?

As a leading packaging solutions company, Green Processing Company is committed to stocking brand new products, including thousands of collapsible containers and pallet sets. The new products are in stock in Windsor, ON and Laredo, TX. We can work with you to make custom containers with the specification of your need.

Do manufacturers offer customisation options for collapsible containers?

Yes,many manufacturers provide customisation choices for collapsible containers,including those for bulk use. You can often have the option to select various sizes,colors,even have your logo printed on them. However,the accessibility of these options can differ from one manufacturer to another and may influence the cost of the containers.

We sell a range of foldable containers, foldable stores and foldable banded chemical stores. These containers are ideal for sites where access for vehicles is restricted.
