At Volpack Energy, we're a scrappy Sri Lankan crew building amazing supercapacitors that store 4x more power, charge in seconds, and cost ...

ADB said yesterday (25 November) that the US\$200 million loan will fund the Power System Strengthening and Renewable Energy ...

ECONOMYNEXT - Sri Lanka's cabinet of ministers had given approval to develop grid scale battery energy storage systems (BESS) to maintain power system stability as variable ...

It is a mobile, intelligent building block of the future energy system. If we charge smart -- and plan ahead -- Sri Lanka's parked EVs could become its largest distributed battery.

At Volpack Energy, we're a scrappy Sri Lankan crew building amazing supercapacitors that store 4x more power, charge in seconds, and cost half as much as traditional options.

Sri Lanka's state-run Ceylon Electricity Board said it has begun seeking funds for to build a 600 MegaWatt pumped storage plant to integrate solar and wind energy and ...

As Sri Lanka prepares to lift its vehicle import restrictions by February 2025, there is a growing anticipation of a surge in electric vehicle (EV) adoption. This shift promises to ...

The Maha Oya Pumped Storage Power Station is a 600MW pumped-storage power station being developed in the Aranayaka and Nawalapitiya areas of Sri Lanka. Upon completion, it will be the country's first energy storage facility, and one of the largest power stations in Sri Lanka in terms of nameplate capacity. The Maha Oya facility is designed to store excess renewable energy from solar and wind sources, thus creating supporting infrastructure for Sri Lanka's target of generati...

ADB said yesterday (25 November) that the US\$200 million loan will fund the Power System Strengthening and Renewable Energy Integration Project, which includes the ...

Welcome to Sri Lanka's energy revolution! The Sri Lanka motor energy storage project isn't just about megawatts and batteries - it's rewriting the rules of how island nations ...

BYD, the world's leading manufacturer of new energy vehicles, announced its collaboration with Sri Lanka's largest listed conglomerate John Keells Holdings PLC (JKH), to provide cutting ...

Sri Lanka's state-run Ceylon Electricity Board said it has begun seeking funds for to build a 600 MegaWatt pumped storage plant ...

The Maha Oya facility is designed to store excess renewable energy from solar and wind sources, thus creating supporting infrastructure for Sri Lanka's target of generating 70% of its electricity ...

This report delves into the transformative phase of Sri Lanka's energy sector, highlighting the growing adoption of renewable energy sources like solar and wind power.
