Which countries dominate solar module manufacturing?

According to Wood Mackenzie's report, China continues to dominate the solar module manufacturing landscape in terms of scale, but emerging challengers from India, South Korea, and Vietnam are rapidly closing the gap as global production becomes more geographically diverse.

What are the top 5 solar module manufacturers in 2023?

The total module shipments of the top 5 manufacturers nearly reached 300GW in 2023. The major players maintained their leading positions throughout the list. The top four were LONGi, Jinko, Trina and JA Solar, the same order as last year.

Which manufacturers ship N-type solar modules?

N-type modules accounted for the majority of shipments from several top-tier manufacturers. Jinko Solar, the top global shipper, reported that over 87% of its 2024 shipments were N-type. However, TOPCon remained the leading advanced technology, with average conversion efficiencies exceeding 24%.

Who is the best solar panel manufacturer?

The top global solar panel manufacturers, based on how many they ship, include Jinko Solar, JA Solar, Trina Solar, and LONGi. However, the best manufacturer for your solar project will depend more on whether their products suit your budget, needs, and lifestyle.

This guide compares leading solar panel manufacturers worldwide, examines the resurgence of US manufacturing, and shows how businesses can source panels wholesale.

According to Wood Mackenzie's report, China continues to dominate the solar module manufacturing landscape in terms of scale, but emerging challengers from India, ...

With more than 300 GW of modules sold and a vertically integrated production line from wafers to modules, the company has ranked number one globally for five consecutive ...

Based on the 2025 market shipment forecast and technology analysis, this report provides an in-depth overview of the world's top 10 photovoltaic module manufacturers to help ...

With more than 300 GW of modules sold and a vertically integrated production line from wafers to modules, the company has ...

Waaree Energies is the largest manufacturer and exporter of solar modules in India currently. The company generated 58% of its revenues from export sales in FY24, with the US ...

To meet this growing demand, the solar manufacturing industry has experienced remarkable growth in the last few years, with ...

LONGi, the king of the PV industry, will supply 66.44GW of modules in 2023, up 42% year on year. Most of the manufacturers in the ...

JinkoSolar is the largest solar panel manufacturer in the world. The Shanghai-based company shipped 47.2GWp of solar panels in ...

According to Wood Mackenzie's report, China continues to dominate the solar module manufacturing landscape in terms of scale, but ...

To meet this growing demand, the solar manufacturing industry has experienced remarkable growth in the last few years, with global module manufacturing capacity increasing ...

JinkoSolar is the largest solar panel manufacturer in the world. The Shanghai-based company shipped 47.2GWp of solar panels in 2024's first six months, more than any ...

In this article, we've focused on the titans of the industry -- the largest solar companies in the world -- and explored their crucial role in shaping the future of energy. ...

LONGi, the king of the PV industry, will supply 66.44GW of modules in 2023, up 42% year on year. Most of the manufacturers in the first tier achieved module shipments of ...

Below, you will find a list of the 15 best exporters of solar power sorted by highest international sales. The top exporters shown above generated 94.7% of all solar power components sold on ...

The solar module company with the largest export
