CSP, parabolic trough, is defined as a type of concentrated solar power system that uses curved mirrors to focus solar energy onto receiver tubes, which contain a thermal transfer fluid that is ...

The enclosed trough architecture encapsulates the solar thermal system within a greenhouse-like glasshouse. The glasshouse creates a protected environment to withstand the elements that ...

TROUGH definition: 1. a long, narrow container without a lid that usually holds water or food for farm animals: 2. a... Learn more.

A Strange Object Has Entered Our Solar System--and One Scientist Says It May Be an Alien Craft If it's not an asteroid or a comet, it ...

Learn what a parabolic trough collector is, its uses, advantages, disadvantages, and working principle. Find out how it is different from solar PV systems.

The meaning of TROUGH is a long shallow often V-shaped receptacle for the drinking water or feed of domestic animals. How to use trough in a sentence.

Definition of trough noun in Oxford Advanced Learner's Dictionary. Meaning, pronunciation, picture, example sentences, grammar, usage notes, synonyms and more.

Modern livestock trough near Empire Ranch, Arizona. A manger or trough is a rack for fodder, or a structure or feeder used to hold food for animals. The word comes from the Old French ...

A trough is a long narrow container from which farm animals drink or eat. The old stone cattle trough still sits by the main entrance.

Parabolic troughs are one of the oldest and most widely used technologies for harnessing solar energy. They are commonly used in large-scale solar power plants, where ...

DOE funds solar research and development (R& D) in parabolic trough systems as one of four concentrating solar power (CSP) technologies aiming to meet the goals of the SunShot Initiative.

trough meaning, definition, what is trough: a long narrow open container that holds ...: Learn more.

TROUGH definition: a long, narrow, open receptacle, usually boxlike in shape, used chiefly to hold water or food for animals. See examples of trough used in a sentence.

Solar Energy Generating Systems (SEGS) is the name of the world's largest parabolic trough solar thermal electricity generation system, developed by Luz in southern California, USA.

Parabolic troughs are the most mature of the concentrating solar power technologies and they are commercially proven. The first systems were ...

Learn what a parabolic trough collector is, its uses, advantages, disadvantages, and working principle. Find out how it is ...
