How many base stations are there in Ukraine?

"We've had more than 10 percent of our sites completely or partially destroyed," explains Sasha Ananyev, head of the network operation department at Vodafone Ukraine. That's roughly 1,400 base stations, and does not include base stations located in Donetsk and Luhansk, areas that have been occupied by Russia since 2014.

What percentage of Ukraine's base stations have been destroyed?

His view was shared by another Ukrainian telecoms provider, Lifecell, which also reported around 10 percent of its base stations being destroyed at its peak, at around 900 sites.

Does Elon Musk support Ukraine's mobile operators?

Support for Ukraine's mobile operators has also come in the form of Elon Musk's SpaceX subsidiary Starlink. Musk has provided thousands of Starlink terminals to Ukrainians on the frontline, primarily supported by the US and other governments. Sotnikov says the terminals have been crucial in providing instant communication.
