What is wind power in North Macedonia?

tility-scale and rooftop PV. WIND POWER Wind energy in North Macedonia is at an earlier stage but is poised for expansion. The country's first wind farm, the 36.8 MW Bogdanci Park (1 turbines), was built by ESM in 2014/15. For nearly a decade, Bogdanci remained the sole wind project--wind cap

What's happening in North Macedonia?

CE Report presents an exclusive interview with the Ministry of Energy, Mining and Mineral Resources of North Macedonia, shedding light on the country's dynamic energy transition, strategic renewable energy investments, and regional cooperation efforts.

How much solar power does North Macedonia have?

MW facility completed by Mey Energy. North Macedonia enjoys high solar irradiation (1,200 kWh/kWp/year) and abundant degraded land, giving it an estimated technical potential above 5-10 GW for PV [11-12]. The government's initial goal to add 400 MW of solar by 2024 has effectively been met, and new targets envision 1 GW+

When will North Macedonia's NECP come out?

North Macedonia adopted its first National Energy and Climate Plan (NECP) in June 2022. It follows the more progressive scenarios from the Energy Strategy in its coal phase-out timeline, with Oslomej being decommissioned in 2021 and Bitola in 2027. However, in the introduction it also says that the timeline may slip to 2029.

Agreements were signed on 28 May 2025 with Power Plants of North Macedonia (JSC ESM) and Siemens Gamesa Renewable Energy (SGRE) to complete the final phase of ...

North Macedonia's third wind farm enters trial operation 08 December 2025 - The third wind power plant in
