Why should you choose TP-Link outdoor wireless base station?

With its centralized management platform and high degree of flexibility, it is the ideal choice for providing point-to-point, point-to-multipoint, and outdoor Wi-Fi coverage. The TP-LINK Outdoor Wireless Base Station pairs professional performance with user-friendly design, making it the perfect solution for both business and home users.

What is a wireless base station?

With the help of the system, a wireless base station is an example of an access point that acts between a wireless node and with other wired PCs and peripherals. A device that is placed between network segments (or "subnets") to ensure that traffic is properly routed between different subnets.

Is AOSU wireless outdoor security system wire-free?

Read more how we test products! We may earn money when you buy through our links. AOSU Wireless Outdoor Security System is completely Wire-Free and it comes with 2 outdoor/indoor cameras and a base station to store your recordings and to make sure the cameras always have a good WiFi connection.

Does WBS510 work with TP-Link?

Two external RP-SMA antenna interfaces allow the Outdoor Wireless Base Station to integrate seamlessly with TP-LINK's line of sector and dish antennas. Where long-distance wireless data transmission is necessary, the WBS510 can be paired with a TP-LINK dish antenna, allowing it to transfer data over distances of up to 50 km*.
