The OP was asking "Array.size () vs Array.length". From the previous discussions, it was make clear, that the "size" Function is not part of standard JavaScript but implemented ...

Using your daily energy usage and Peak Sun Hours, and assuming a system efficiency of 70%, the calculator estimates the ...

Using your daily energy usage and Peak Sun Hours, and assuming a system efficiency of 70%, the calculator estimates the Wattage required for your off-grid solar system"s ...

If the size of the int is that important one can use int16_t, int32_t and int64_t (need the iostream include for that if I remember correctly). What"s nice about this that int64_t should not have ...

What is the difference between .size() and .length ? Is .size() only for arraylists and .length only for arrays?

Whether you"re an off-grid enthusiast or a sustainability-minded entrepreneur, knowing the solar capacity of a 20ft container is ...

In this case, depending upon what your use case is, you might be better off using int (or long long) for s1 and s2. There are some functions in C/POSIX that could/should use size_t, but don"t ...

In several C++ examples I see a use of the type size_t where I would have used a simple int. What"s the difference, and why size_t should be better?

Sizing your WaterSecure kit depends on the horsepower of your pump and the power requirements of other appliances. For a quick and easy way to determine which WaterSecure ...

Get detailed specs and pricing for Sunmaygo's solar containers. Compare models, battery options, and calculate ROI.

`typedef size_t intc; // (instead of unsigned int) typedef ssize_t uintc; // (instead of int)` Because `strlen`, `string`, `vector`... all use `size_t`, so I usually use `size_t`. And I only use `ssize_t` when it may ...

The approach basically builds on other work where people experimentally identified the size of primitives and typical Java objects and then apply that knowledge to a ...

Their size and number vary depending on energy requirements and sunlight availability. Batteries: Equipped with deep-cycle batteries, these containers store excess ...

In a 40-foot shipping container, the capacity for solar panels varies based on their size and type, typically accommodating between 390 and 420 units. For instance, if using 200 ...

I found two ways to determine how many elements are in a variable... I always get the same values for `len()` and `size()`. Is there a difference? Could `size()` have come with an ...

As you know, matlab deals mainly with matrices. So, the `size` function gives you the dimension of a matrix depending on how you use it. For example: 1. If you say `size(A)`, it will give you a ...
