What is TE Connectivity's battery energy storage system (BESS) solution?

TE Connectivity's (TE) Battery energy storage system (BESS) solutions, which improves power allocation flexibility in power generation, power transmission, and power consumption, help meet this increased demand for alternative energy sources.

What is a Bess system in Mexico?

BESS systems have a wide range of applications in different industrial and energy sectors. The best candidates for implementing these systems in Mexico are companies with electricity bills exceeding 400,000 pesos per month (GDMTH, DIST, and DIT rates).

Why do companies need a Bess system?

Sustainability: By charging batteries during off-peak hours, when energy is generated using cleaner technologies, and discharging them during peak hours, when more polluting sources are used, BESS systems help reduce companies' carbon footprint.
